### WHAT LOEBENSTEIN WANTS

Comes As Delegate of Hilo Health Committee.

Brings Communication to Board of Health—Situation on Hawaii Explained—Committee Wants Official Recognition.

Representative A. B. Loebenstein of Hilo arrived in the Kilauea Hou yesterday bearing a communication from the Health Committee at Hilo which was sent to President Wood yesterday afternoon. Mr. Loebenstein comes as the delegate of that body and this morning his official communication was sent to the Board of Health. In an interview over the side of the Kilauea Hou this morning Mr. Loebenstein had the following to say to a Bulletin reporter:

"At a meeting of the Health Committee Tuesday night I was appointed a delegate to proceed to Honolulu for the purpose of communicating with the Board of Health. I left Hilo on horseback Wednesday afternoon at about 3 o'clock and arrived in Kailua the next day at about the same time. Two hours later I was on the Kilauea Hou, bound for Honolulu.

"My mission is partly to correct the idea that Hilo is the only place on the island of Hawaii that is making the present stand. The fact that the committee is composed of representative men from every district on the island shows that there is a unity of feeling. The whole island is alive to the necessity of taking steps to prevent the plague reaching the shores of Hawaii. We are so far away from Honolulu and there is so much difficulty in the matter of communication that there must be some advisory board to watch over the health of the islanders of Hawaii. We are none of us danger flouters but we do want to keep out the plague. While there may be a difference in opinion as to the powers that should be given the committee, the whole island is favorable to the general plan.

"There is no lack of confidence in the Board of Health. Indeed, they have given us every reason to believe they are doing their best to stamp out the plague and to prevent its spread to the other islands.

"We of the committee feel that we should receive authorization from the Board of Health to act for that body and to have power to condemn and abate nuisances. I do not think this is an unreasonable request. The same unsanitary and filthy conditions you have had here are to be found in Hawaii and yet we have neither the authority at law or the authorization to disburse funds to control any emergency that must arise.

"We are entirely helpless, possessing not even the crudest appliances of a sanitary nature, buildings for quarantine purposes, disinfectants or agents to carry out the orders of the Board.

"My official communication to the Board of Health was sent ashore this morning and I expect to hear from it soon. Any conferences will be held out here in the steam as I cannot leave the steamer.

"In my communication I expressed the hope that the strict quarantine in regard to steamers from this port would be continued. The people on our island are fully in accord with this. I also made the request that only such goods as machinery, rice transhipped from the other islands, corn, mail, foodstuffs and grain from clean ships, be sent to Hilo.

"I further requested that all vessels leaving Honolulu for Hawaii be instructed to proceed to Hilo with their permits in order that the status of those may be ascertained.

"There is no scarcity of foodstuffs on Hawaii nor will there be for all the big shipping firms have arranged for vessels to come to Hilo direct from the Pacific Coast.

"Now then a word in regard to Sheriff Andrews. There is no doubt that he is acting from conscientious motives but he was ill advised. The insistence on his part to control the traffic of the whole island by regulations established by himself was without the consent of the outside districts.

"I remonstrated with Mr. Andrews and told him that such measures as he had presumed to issue could not be carried out unless the consent of all parties was first obtained. Then it was that the request for delegates from the districts was made and C. C. Kennedy and myself were appointed from Hilo. After meeting Mr. Cooper on the Pathfinder we elected the members of this committee. The statement that there was a lack of harmony between the different elements, made by Mr. Cooper, was entirely erroneous. I believe the Attorney General tried his best to spread the impression that it was a case of Hilo versus the remainder of the island.

"I believe we are within our own right and while there may have been some foolish and thoughtless actions at the outset, this has not prevailed for a moment against the actions of the sober and more thoughtful part of the community. At no time was there any

danger of bloodshed and there were no disturbances that could not be and were quelled."

As the Kilauea Hou is to take a lot of machinery to Hawaii it is probable that Mr. Loebenstein may not be able to get away before Monday or Tuesday.

### VESSEL SALE POSTPONED.

There was a large attendance at the Judiciary building entrance at noon for the Marshal's sale of the stranded and submerged barkentine William Carson. President C. L. Wright and K. R. G. Wallace represented the Wilder Steamship Co. O. Sorenson the firm of Sorenson & Lyle, while Captain Harry Evans, the famous buyer of derelicts, Captain Logensen the pilot and other maritime men were there.

A delay of a few minutes revealed signs of a hitch in the sale. Marshal Brown consulted Paul Neumann as counsel, questions having been asked by intending bidders about the cargo and articles already recovered from the wreck.

Jas. F. Morgan, auctioneer, called the gathering to attention and then announced that the sale was postponed until 12 o'clock noon on Wednesday next. The reason he gave was simply that Judge Stanley's order of sale made no mention of the cargo.

### THE TIME IS CONSIDERED.

On account of the hard times due to quarantine, the sale of delinquent Olin stock was indefinitely postponed at the auction rooms of Jas. F. Morgan today.

### Makiki in Line.

The Makiki Improvement Club met at Castle & Cooke's office yesterday afternoon and elected the following officers: J. B. Atherton, president; J. H. Soper, vice-president; George McLeod, treasurer; J. A. Gilman, secretary; J. A. Kennedy, F. M. Hatch and Will E. Fisher, executive committee.

### THE MOST POPULAR CAPTAIN

Announcements Once a Week—How to Vote—Cameron Leads Again.

Votes in The Most Popular Captain Contest are coming in steadily. The results of the weeks voting will be announced each Saturday the votes being counted every Friday evening. As the contest progresses and the strife grows keener the announcement may be made more frequently. The prize is one well worth winning, it being a pair of the finest binoculars that can be obtained in Honolulu. They may be seen at any time in Wichman's jewelry store.

In addition to the votes which appear each day in the upper right hand corner of the first page, which are to be filled out and deposited at this office, new subscribers are entitled to cast votes as follows.

1 month ..... 40 votes  
3 months ..... 150 "  
6 months ..... 350 "  
1 year ..... 750 "

Cut out your vote each day, fill in the name of your choice for the most popular captain and place them in the ballot-box in the Bulletin Office. Every vote will count at the end for the contest is sure to be a close one. This is a case where you should vote early and vote often.

There is no change this week in the order of those at the head of the list. Captain Cameron still holds that position but captains Clarke, Simerson and Pedersen are pressing him close for first place. Captain Pedersen has made quite a jump this week having come up to a place among the leaders from almost the foot of the list.

Capt. Cameron ..... 435  
" Clarke ..... 393  
" Simerson ..... 364  
" Pedersen ..... 346  
" Freeman ..... 59  
" Tullett ..... 47  
" Nicholson ..... 9  
" W. Isbarth ..... 9  
" Thompson ..... 6

### Quarantine Case Dismissed.

Victoria (B. C.), Jan. 14.—The charge against captain Rice of the bark Hawaiian Isles, accused of a violation of the quarantine laws, has been dismissed by the Supreme Court.

### OUT AT THE BIG CAMP

Remarkable Amount of Work Done In Three Weeks.

Superintendent McVeigh With Assistants Whipping Things Into Shape Work on Buildings to Be Completed Soon.

In four or five days the force of carpenters and lumber carriers will disappear from the detention camp at Waikamilo leaving behind them in three weeks' time work that, under ordinary circumstances, would have taken months to complete. The first two rows of houses for the people held in detention were mentioned in this paper several days ago. Since that time a good sized town has sprung up among the algeroba trees at Waikamilo. A reporter of this paper called at the camp yesterday afternoon and was kindly shown about by J. D. McVeigh, the general superintendent.

The first thing one runs up against after crossing the railroad track is a line of military guards who are assigned to duty on the outside of the camp, the police work of the camp itself being attended to by a corps of efficient men sent out by Marshal Brown. Just now there is in process of construction an eight-foot open board fence which will completely surround the camp, thus making it possible to cut down still more the force of soldiers and police guard.

A fine coral road running parallel with the railroad track and back of the first line of houses on the Ewa side, has just been built. This will be continued around between the rows of houses so that supplies may be handed in the front way to the people in detention. The large pipes used to flush out the flumes will interfere somewhat with this curving road, but small bridges will be built over these.

There are now six instead of two rows of houses. They have been completed and the last two are nearly so. The first two rows have had the division fences put up already so that the occupants of one house are kept free from contact with those of the one next. The next two rows will have their fences up in a couple of days.

The fumigating buildings, two in number and complete in every detail, are at the mauka corner of the grounds and separated from the remainder of the houses by a high fence. The larger is the building for the bathing of the people while the smaller will be used to fumigate their clothes. Mr. McVeigh's plan was outlined by himself yesterday as follows: "You see none of these people have begun their quarantine yet although some have been here two weeks already. This, of course, cannot be helped as the division fences have just been built. As soon as the fumigating and bath rooms are finished, which I expect will be on Sunday, I will have the people from the first two rows taken out, house by

(Continued on page 3.)

### Aztec at Hilo.

Hilo, Jan. 20.—The U. S. Transport Aztec arrived in port Friday afternoon 9 days out from San Francisco. She has on board 350 horses and mules for Manila. Her purpose in coming here is to land the stock for a few days and rest them before proceeding on her journey. She brought no mail and only one paper of the 10th of January.

The vessel is under the command of Captain G. G. Trask and the cargo under Captain Gale, U. S. officer. The other officers on board are: Lieut. Corno, Dr. W. C. Chidester, and Veterinary Surgeon Dr. De Vaal.

### Wanted Pope to Arbitrate.

Madrid, Jan. 13.—In the Senate today, replying to criticisms of the Government's policy toward the United States during the incumbency of the Sagasta Ministry, Senor Gullon, former Minister of Foreign Affairs, declared that the note presented by General Woodford demanded the pacification of Cuba within a short period. Spain, he said, desired the arbitration of the Pope, but unfortunately the United States provoked the war. Senor Gullon concluded by demanding the good will of the Senate on behalf of the Sagasta Ministry, which saw Spain drawn into a war for which she was unprepared.

### NEW HEALTH REGULATIONS

Revision Completed And Adopted In Entirety by Board.

Decision on Buildings at Edge of Infected District—The Fence Contract—Understanding About Guards After Little Breze.

Yesterday afternoon's meeting of the Board of Health was attended by Dr. C. B. Wood, president; Attorney General H. E. Cooper, Dr. Emerson, Dr. Day, Geo. W. Smith, F. M. Hatch and F. J. Lowrey, with Charles Wilcox secretary. It was remarked that it was the first full meeting of the Board since last change in membership.

A communication was read from Dr. Grace, chairman of the sanitary committee of Hilo, relating late proceedings of that body. Among other things a rule is promulgated that no burial be allowed on the island of Hawaii without a medical certificate of cause of death.

Regulations for construction of cesspools were discussed by the Board. Dr. Day suggested that the regulations should be printed on applications for building permits, so that builders should know just what was required. There was tacit approval of this idea by the Board.

Mr. Hatch moved, Dr. Emerson seconded and it carried, that the regulations be amended so as to have the maximum depth of cesspools eighteen feet, the minimum to remain at six feet.

With some verbal amendments the regulations as revised were adopted as a whole.

The president brought up the matter of the doubtful section of Nuuanu street adjoining the burnt district.

Mr. Hatch recommended that the proprietors be given an opportunity to remove objectionable structures and satisfactorily fumigate all other buildings. In case of neglect, the Board could then take action for placing the section in sanitary condition. This was adopted.

It was decided to give the contract for building a fence around the burnt district to W. H. Russell, the lowest bidder, at 39 cents a foot.

President Wood had received an urgent request to allow rice from Hopper's mill storage to be shipped to outside plantations. It was the opinion of the meeting that the planters might arrange to have rice shipped from outside rice growing districts to wherever it was needed. Say, from Kaula to Maui.

The president gave an account of the latest plague cases with the efforts made to trace up the origin of each. Marshal Brown had now detectives investigating the case of the Chinaman who had been employed at the Pantheon saloon. A more difficult case to trace was that of the native woman found sick at Kaimuki. Where she got infected the president had been unable to determine.

(Continued on page 6.)

### What Becomes of Lost Money.

Editor Evening Bulletin.—At the present time the men engaged in cleaning up the burnt district are constantly finding small quantities of money in the debris. This money comes from the money tills other than safes and ranges in amount from ten cents to ten dollars. I am one of a great many who would like to know what becomes of this money, and if any accounting is made to the authorities of the money picked up.

CITIZEN.

### Cornelius Biles for Vice-President

Anderson (Ind.), Jan. 14.—W. T. Durbin, member of the National Republican committee for Indiana, is out in an interview today strongly urging Cornelius N. Biles of New York, ex-Secretary of the Interior, for the Republican nomination for Vice-President.

### Innovation in a London Theater.

London, Jan. 13.—In George Alexander's reconstructed St. James Theater, which opens shortly with "Rupert of Hentzau," is a curious innovation for the suburbanites in the shape of a room for gentlemen to don evening dress.

The Evening Bulletin, 75 cents per month.

### NO NEW CASES FOR A DAY.

Japanese From Detention Camp Died Of Pneumonia

Authorities Following Those Who Escaped Quarantine Situation Seems to Give Promise of Permanent Improvement.

2 p. m.—No new cases today. The Hawaiian boy from Nuuanu, reported yesterday afternoon, was the last. It turned out after post mortem examination on the body of Chiga, the Japanese taken from the Kaili detention camp, mentioned below, that this was not a case of plague. It was diagnosed as such and the man was removed to the pest house.

### Escaped From Quarantine.

During the rush in Chinatown Saturday afternoon Wong Kun escaped from the infected district and only today was he apprehended by Sub-Inspector W. M. Crawford. When Wong Kun passed the guard lines he went out to Makiki and yesterday, learning that removal permits were being issued, went to St. Louis College and applied for a permit from Brother Thomas. Unfortunately for him he stated that he had come from the infected district. He was sent to the headquarters of the Sanitary Committee with a note that fully explained matters. Wong Kun gave this to another Chinaman and then proceeded to get out of the way. He was followed up by Crawford who found the man in the act of getting into a cart near Allen & Robinson's lumber yard with a bundle of clothes. He was evidently contemplating removal to another place.

### Cerebral Hemorrhage.

Inspectors bimson and hoberths this morning reported a case of sickness in a house on the Waikiki side of the See Yup building, opposite the O. L. & S. A. shops. Dr. Jobe went to the place and found a Japanese woman suffering from cerebral hemorrhage. Dr. Mori had charge of the case. When found by the inspectors the woman was unconscious.

### Military Movements.

Companies A, C, and F, N. G. H., having had their baths and fumigation of camp equipage, together with complete changes of apparel, at the headquarters fumigation station, return to Camp Jones at Kaili this afternoon. Co. B will then be the only company on duty at headquarters.

### A Suspicious Case.

A suspicious case was discovered by inspectors in a house on Jack's lane above Wylie street late yesterday. The victim is Hoomanawanui, a native boy, aged 16. Traces of effusion in the groin were found. Guards were placed and the boy was removed to the suspect hospital in Kakaako.

### Death of Chiga.

Chiga, the Japanese taken from the detention camp at Kaili to the pest hospital the other day, died this morning and his body has been cremated. The man had been sinking ever since his arrival at the pest house.

### Executive Visit.

President Dole and all the members of the Cabinet visited the drill shed camp at noon. They were more than pleased with the arrangements for the comfort of the Japanese refugees from burnt Chinatown.

### All Well Today.

Dr. Myers reports a clean bill of health at the drill shed camp today. Only a few malarial cases remain in the hospital.

### DEATH OF WILLING CHILD

Editor Evening Bulletin.—Yesterday morning I made a report to the Citizens' Sanitary Committee, an exact copy of which is as follows:

Honolulu, Jan. 26, 1900. This morning at 2 a. m., or thereabouts, Mr. Carl Willing, who lives in the premises adjoining mine, came to my house and requested me to telephone a doctor as his little girl, aged about 2, was very ill; he did not know what was the trouble with her and I thought it best to telephone the Board of Health, which I did; a doctor (whom I subsequently found was Dr. Jobe) arrived and said the girl did not have the plague, and declined to treat her as he was only employed to treat such cases, but he said he would send out another doctor, but no doctor arrived, until this morning, at about 7 o'clock, we telephoned to Dr. Miner who immediately came out, but the child had died, and the doctor could not ascertain the cause of the child's death and declined to issue a certificate of death. I again telephoned the Board of Health, requesting that a doctor be sent out to

ascertain the cause of the child's death, but after waiting three quarters of an hour, and no doctor appearing, I came to town.

I would respectfully request that the action of Dr. Jobe be fully investigated, as I consider his conduct in this matter extremely inhuman.

F. W. MAKINNEY.

In the Star of yesterday Dr. Jobe states that he was called to attend a sick child at Mr. Kennie's, no such person resides at the place where he called, and as a matter of fact he did not take the trouble to inquire the name of the people called upon. Dr. Jobe responded to a telephone message, and when he arrived at the house of Mr. Willing could not have helped but see the critical condition of the sick child, and had he done his duty should have remained until another doctor had been telephoned and had arrived; he wasted no time, however, in departing, and the child died without medical attendance.

Dr. Wood in this morning's Advertiser is reported to have said that this Dr. Jobe was a newcomer to Honolulu and "did not understand that his instructions included the duty of attending any kind of sickness he came across, whether it was plague or cold."

I would like to ask if any person, whether doctor or layman, who had the least spark of humanity in his system, would have refused to render assistance to the sick and dying, or would have deserted this sick and dying child without having made some effort towards relieving it.

Dr. Jobe's duty was to have staid by the child until another physician had arrived, instead of which he telephoned to a physician and does not take the trouble to ascertain whether he arrived at his destination or not. Dr. Augur or any other physician in town would never have found "Mr. Kennie's house" for there is no such person resides in District 31, Apiana 10.

Respectfully,

F. W. MAKINNEY.

Sub-Inspector, District 31, Apiana 10, Honolulu, Jan. 27th, 1900.

Dr. Jobe came to the Bulletin office yesterday and made the following statement in connection with the Willing child: "I am on duty at the Board of Health office as call physician to investigate reported plague cases. I was called to Mr. Willing's house at 3 a. m. and found the child suffering from membranous croup. I had no medicines with me except such material as required to treat plague patients. I told the family I had no medicines, but would call another physician. I called Dr. Wayson but he did not respond. I called Dr. Augur and he responded but mistook the name Makiki street for Likelike street. While he was looking around for the place, the child died."

### THE EXECUTIVE COUNCIL.

The Executive Council this morning appointed John K. Burkett, principal of the public school, as District Magistrate of Koloa, Kauai, in place of Charles Blake, who is stalled in Honolulu by quarantine.

On Monday morning at 10 o'clock the Council will receive the representatives of the Chamber of Commerce in conference on the subject of a new quarantined wharf for goods to be shipped to the other islands.

At 11 o'clock the representatives of various corporations seeking amendments to their charters will confer with the Government.

### ANGLOMANIA.

Clubman—Cholly looks real melancholy.

Georgie—Yaas; he's thinking—awh—seriously of going to England and offering his services against the Boers. —Syracuse Herald.
